STRENGTHS

Problem Solving

Skilled in analyzing technical issues, identifying root causes, and applying logical troubleshooting steps to resolve problems effectively.

Able to handle customer queries with patience and clarity, turning challenges into positive outcomes.

Adaptable to new tools, processes, and technologies, ensuring efficient solutions in dynamic work environments.

Strong combination of **analytical thinking + communication skills**, enabling both technical accuracy and user-friendly explanations.

Communication

Effective Communication – Skilled in handling customer interactions across chat, voice, and social media with clarity, empathy, and professionalism.

Customer-Centric Approach

Focused on building trust and ensuring customer satisfaction through timely updates and resolution.
